Technical Explanation of Big Miracle Coin

[Descriptions of the development]

[Development Term]

Individual mining system for cryptocurrency

[Technical Field]

The execution of this development is regarding the individual mining system for the cryptocurrency

[Technology for the background of this development]

cryptocurrency or Bitcoin that represents the cryptocurrency is a protocol that engrafted blockchain technology on the financial transaction system. A system that issues currency on the internet through smart contract.

As a type of a digital currency that does not take a visible form, the Bitcoin which is one of the main cryptocurrency has no manager and is traded freely globally through P2P method. The key part of the features of the Bitcoin is in the blockchain that solved the double-spending-problem. There were many digital currencies before Bitcoin, but the reason it was has not been bale to be used as actual currency was because of the risk of the digital currency, an electronic information, being copied and used. Bitcoin uses the information encryption technology known as block chain with the mining method of giving awards and had solved this problem.

At this time, mining the cryptocurrency took on a method of providing a platform that is controlled to mine when the set conditions are satisfied. Hereupon is a new technology to monitor if the user satisfies the set condition while playing the game.

Bitcoin group has achieved 5 Korean patents, 10 more are applied and are carrying out number of blockchain cryptocurrency global patent registration to global patent office such as America, Singapore, Philippin, Russia, Japan, China, Hong Kong and so on.

Bitcoin group as already achieved patents from the American patent office, which is the center of the world, along with Korea and has registered patent in Japan and has been recognized for the blockchain cryptocurrency technology from global patent offices.

Bitcoin group is a global ctyptocurrency development company and a global leader

We will create a legend by reclaiming the number one spot in the world once again. BMC will list with the minimum supply and, starting at a price of 12,000 KRW (US\$7.77), will break through \$100, \$1,000, and \$10,000 to advance toward higher target prices. BMC global users, let's create a legend together once again and go to the moon.

One day, 400,000 coins were sold. Our coin price plummeted. So I bought 400,000 coins at once on the market. And then I raised the price. When BMC coin was listed, American traders and I continued to buy coins to create global trading volume and price increase. And I sold at the highest price and made a lot of money. And with the money I earned, I bought a lot of Bitcoin, and now that Bitcoin is rising, my money continues to increase without me doing anything. I can make everything about my coin, including the price increase and trading volume, the world's number one coin again whenever I want. I have already proven my ability to users all over the world. Whenever the time comes to use my ability again, I will do it without hesitation. If you talk nonsense even after seeing it with your own eyes, leave my band.

Disclaimers

- ✓ Cryptocurrency coin should not be considered as investment. Also in case the solution executed by the Big Miracle coin is not actively used in the actual society, the value may drop.
- ✓ Risk of losing fund : The fund that was collected during the procedure of the business is not guaranteed. In case the value is damaged or lost, there are no individual or public insurance agency that can replace the purchaser.

Big Miracle Coin White Paper

[**Big Miracle TARGET GOAL \$70,000**]

Bitcoin Group announced its listing roadmap that Big Miracle, its Bitcoin automatic mining app system, would start trading services for a target of \$70,000 in 2025.

President Song Myung-ho, an American developer of Bitcoin Group, invented Big Miracle which anyone can mine easily with the goal of creating a Big Miracle that surpasses Bitcoin.

Big Miracle is a new Bitcoin-based block chain through real life use and a cryptocurrency personal mining system.

For free mining coins of other companies such as Picoi(PiNetwork), it is troublesome to access the app every day, press the mining button, mine every day, and watch advertisements. It is captivating users all over the world with a system that by mining automatically.

Big Miracle's ultimate goal is 70,000 USD, which is very different from other systems that have been introduced so far in all aspects such as technology, remittance, convenience, and business feasibility. We are confident that we will achieve it and surprise the world.

The Bitcoin group has attracted more than 1,000,000 users worldwide so far, and is rapidly growing in China and Indonesia, Europ, Arab, Africa. Big Miracle is playing the role of an evangelist.

This is the reason why the interest of the global blockchain cryptocurrency industry is focused on Bitcoin Dollar's unstoppable moves.

The Big Miracle announced by the Bitcoin Group will be explained in detail from now on.

Big Miracle Coin White Paper

First. Let me tell you in detail what Big Miracle is.

President Song Myung-ho, an American developer of Bitcoin Group, invented a block chain cryptocurrency with a goal of creating a Big Miracle that surpasses Bitcoin, and this is Big Miracle.

It is famous as a system recognized by the world as that has applied for and registered worldwide patents. In particular, third-party free mining coins such as Pico coin have the hassle of accessing the app every day, pressing the mining button, mining every day, and watching advertisements.

Big Miracle is developed all the same as Bitcoin.

Total number of issuance 21 million The conditions and system are the same for all 18.95 million coins mined so far, halving, Bitcoin-based blockchain, consensus algorithm, etc.

However, it perfectly compensates for excessive electricity consumption and remittance speed during mining through PC, which have been pointed out as disadvantages of Bitcoin, to ensure energy saving, fast remittance and the highest level of security, technology and convenience.

Big Miracle's target is 70,000 USD, and it will be listed on the world's top 10 global virtual asset exchanges from June to August, and it will be possible to sell, withdraw, and cash in your wallet.

Coins are provided free of charge through the current free airdrop event so that waiting until the goal is not bored, luxury bags, Genesis, Tesla, Apartments, etc. We are operating a trial service that provides both coins and gifts.

Second, We will tell you about the mining method of Big Miracle.

Big Miracle is like Bitcoin. hash is a one-way encryption technology, so it is impossible to find the input value in reverse with the result value. Therefore, the only way is to run until the result is the same as the output value by brute force. This processing of hashes per second is also called hashrate.

Solving the problem in this way solves the double-spending problem, as only the earliest mined blocks will be recognized and the rest will be discarded.

Therefore, Big Miracle is very strong in security and perfectly solved the slow remittance speed of Bitcoin by additionally applying an international patented algorithm using a personal network through a mobile phone and making it multi-system.

In other words, it blocks the factors that may cause unstable movements of cryptographic symbols, algorithms, and blocks in a small amount in advance.

Big Miracle uses a script algorithm instead of SHA 256, a complex hash algorithm, which is a device to prevent abnormal power consumption due to increased mining difficulty. have had The most notable achievement is the rapid creation of blocks. This is only possible with Bitcoin Dollar with the US patent technology of the Bitcoin group.

In the Bitcoin Hunter network, that is, each transaction is processed in a separate channel and only the result value is recorded in the block chain, and only important transaction details are stored in the block.

Other than that, transaction fees can be dramatically lowered by significantly improving network speed by processing other things outside of the block chain, and we are helping to make good use of it.

Third, we would like to inform you about the Big Miracle white paper.

The white paper is for reference only. How many users will be able to understand all of them by writing down miscellaneous techniques that are difficult for even experts to understand and making a plausible and splendid white paper.

Big Miracle has already been officially recognized for its technology by the World Intellectual Property Office, and since you can directly see and feel the basic principles that are so easy when you use the wallet app, only the basic principles are written in the white paper, It is officially posted on the Bitcoin Dollar Website, so please refer to the website.

Fourth, we will tell you about the technology, security, and remittance speed verified by the world of Big Miracle.

Big Miracle has been officially recognized for its technological prowess by patent offices around the world, including Korea, the United States, China, and / Japan, and boasts the world's highest level of security as publicly stated on TV that even world-class hackers could not break through the security.

It perfectly compensates for the slow remittance speed and has the advantage of the best fast remittance speed

Fifth, we will tell you about the convenience of Big Miracle.

Since Big Miracle was released as an integrated app and wallet, it will be easier to understand if you think of it as a multi-wallet with various functions.

The wallet app was created so that anyone in their 60s to 80s can easily install and use them. It has already been verified by 300,000 members worldwide, and those who use third-party coin wallets such as Picoi(PiNetwork) will immediately feel how convenient and easy Big Miracle is when you install and use it.

Sixthly, we would like to inform you that Big Miracle is an energy-saving, eco-friendly green coin.

Through PC, which is currently appearing in other coins such as Bitcoin and Ethereum, the problem of excessive mining electricity usage was identified and improved, and power consumption was dramatically lowered to the level of cell phone electricity usage.

Seventh, we will inform you about the perfect communication of Big Miracle.

Bitcoin Group directly communicates with the foundation developers through SNS around the world, such as Band, Twitter, YouTube, Instagram, and Facebook, and you can hear answers to all your questions in real time 24 hours a day.

Eighth, we will inform you about the price target of Big Miracle.

Big Miracle Coin's ultimate goal is 70,000 USD

Ninth, we would like to inform you about the public disclosure of the Big Miracle roadmap.

Big Miracle Coin was introduced to the world media such as the US and China, such as Yahoo Finance, from on 2025, free airdrops and auto-mining free beta services for users around the world such as Korea, the United States, China, Japan, etc. is.

And at the same time as the world's top 10 global virtual asset exchanges were unveiled in 2025, a total of 1 million additional airdrops were made to 10 million users on the exchange side, and the voyage toward the goal began in earnest

Big Miracle Coin White Paper

When Bitcoin first appeared in the world, no one looked at it. Even if it was given away for free, no one was willing to accept it, saying it was a "scam".

In 2010, a programmer named Laszlo Hanyecz living in Florida, USA, mined and stored 14,000 bitcoins on his own computer. I posted that I would pay the equivalent of 10,000 coins in Bitcoin.

At the time, everyone did not see Laszlo Hanyecz' proposal as a 'scam', but after 4 days, someone delivered two pizzas to Laszlo Hanyecz on condition that he received 10,000 bitcoins, and Bitcoin was sent to the person who sent the pizza. 10,000 are transferred, and the first Bitcoin spot transaction is made.

Not everyone believed it was a 'scam', but he who sent two pizzas seized the once in a lifetime opportunity to earn \$569 million and become a millionaire.

We conclude today's news, hoping that you do not miss the one-time opportunity that has come to you in the name of "Big Miracle Coin"

thank you.

BMC Listing News: BitMart US Priority Listing Confirmed (96% Vote)

The subsequent schedule is as follows:

Big Miracle Coin White Paper

Answers to frequently asked questions, how to apply for free airdrop, how to use, roadmap.

[1] (Q&A) How to mine Big Miracle?

If you install the wallet on your mobile phone, the mobile phone will automatically mine (0.01) per day and deposit it into your wallet from the day after installation without logging in, pressing the mining button, or doing anything.

[2] Submit the application only once. Uploading more than twice is not processed.

[3] If you have submitted your application, please wait for it to be processed. If it has not been processed within 24 hours of posting, it is an incorrect application.

[4] If your application did not pass and you do not know why, look at the applications of other passed users. Then you'll quickly see what's wrong with your application.

[5] BMC free automatic mining is mined from the day after the wallet is installed and is deposited by 0.01 per day.

[6] I really want to give you free dollars. I told you to get (50~100) referrals or buy (100~1,000BMC , but you can't do it. I'll lower the conditions. Get (10) referrals or Buy (15) \$BMC for(0.500) and Become a passionate member and get free dollars.

[7] New Passionate Member : Free Dollars + (Mining/Transfer/Remittance/Sell/Withdraw/BitMart/0.3) + BMC 3coin

Big Miracle : Unlocking Treasure-Backed Wealth and a New Era of Crypto Mining

1. What is Big Miracle Coin?

Big Miracle (BMC) is a cutting-edge cryptocurrency project that merges the power of blockchain. Designed with the same issuance structure and halving process as Bitcoin, Big Miracle adds a unique twist with its real-world treasure discovery vision, offering a bold opportunity for traders, investors, and crypto enthusiasts.

2. Built on Bitcoin's Proven Success

Big Miracle replicates Bitcoin's successful structure with similar issuance schedules, halving processes, and a finite supply.

3. Revolutionary Mining with an Automated App

Big Miracle introduces an innovative, stress-free mining experience through its sophisticated mining app, available on iOS and Android. With automatic mining and withdrawal into an inbuilt wallet, users no longer need to interact daily. Whether you're young, old, or new to crypto, Big Miracle's app ensures mining is accessible to everyone. VIP members can mine and withdraw 1.5\$BMC daily to bitmart exchange.

4. Halving Process for Long-Term Value Like Bitcoin

Big Miracle features a halving process where mining rewards are halved periodically. This process reduces the introduction of new BMC into circulation, increasing its scarcity and potential value over time, making Big Miracle a promising asset for long term investors

Big Miracle Coin White Paper

5. Community Participation and Reward Tiers

Big Miracle thrives on community engagement, with members advancing from ordinary membership to VIP status based on their participation in activities such as mining, contests, and promotions. Each level of involvement comes with valuable perks, with VIP members enjoying enhanced benefits, including daily mining rewards. Active participation in the community isn't just encouraged—it's rewarded with greater opportunities and higher levels of access

6. Serious and Legitimate Project with Global Patents Registered and patented in key global markets like the "USA, Japan, and Korea, Big Miracle stands as a serious and legitimate cryptocurrency project. This solid regulatory foundation offers enhanced security and trust for investors, traders, and community members, making Big Miracle a reliable and credible opportunity in the crypto space.

7. Trading and Liquidity on Major Exchanges' Big Miracle Coin (BMC) are easily accessible for trading on "BitMart" and other major exchanges

Don't miss out—become part of the next big crypto revolution with Big Miracle.

BITCOIN GROUP
